

Physical Characteristics of IFP/USAPA Approved Balls

updated 02/08/2016

Balls are tested for each size and each color. Balls are checked for size (diameter), weight (grams), bounce, and hardness (Durometer D scale) at 75 to 80 degrees F (24 to 27 degrees C).

Note: Effective 11/01/2015 the ball specifications changed. See IFP Rule 2.D. On 10/01/2016 any balls not meeting the new specifications will be removed from the list of approved balls. Below, in red, are balls that will no longer be approved on 10/01/2016. Others will be tested between now and October, 2016.

Ball Type	Color	diameter (in/mm)	weight (gram)	bounce (in/mm)	Hardness	Date
Cosom Fun Ball	White/Yellow/ Red/Green	2.875/73.02	22	30 / 762	40-42
